WHAT DO PEOPLE SAY ABOUT CANADIAN DIMENSION?

"With the world veering from one potential catastrophe to another, in many different domains, it has never been more important to have clear, critical thinking and analysis that is not restricted by dominant ideologies. Canadian Dimension Magazine has performed that function very effectively, a contribution of unusual importance.

- Noam Chomsky, author of *Manufacturing Consent*

"In these days, when the space for democratic debate is more and more restricted, CD offers one of the few places where the left can debate issues of strategy and policy. As mainstream politics becomes more spin than substance, CD offers one of the few forums for substantive political discussion and information on what's happening." - Judy Rebick, author of *Imagine Democracy*

"CD is a haven for those who have had their fill of corporate groupthink. Tough, thought-provoking and unwilling to bow to the latest media fad, this is one publication you won't find at your dentist's office." - Linda McQuaig, author of *Shooting the Hippo* and *The Cult of Impotence*
